Hi [REDACTED] I have a meeting conflict with our 1400 call. I'll jump on if my other meeting ends. Thank you

This came from our PSS: Update on the Dixie Fire on HWY 70 east of Cresta Dam, fire still holding with retardant at just under 2 acres. Firefighters are still attempting to make ground access. Per [REDACTED] a Tman is in route from Chico to open SSD 941 on the Bucks Creek 1101 for firefighter safety. There is little to no comms with ground personnel so information is limited.
